Dear Health Care Practitioner,

Re: Medical Assessment for Commercial Driver Fit for Work

As part of the City of Edmonton's Driver Evaluation Program your patient has chosen to be seen by their own physician for their medical Fit for Work assessment as a Commercial Vehicle Driver.

The medical assessment that we need completed is:

- vision and hearing tests;
- standardized cognitive assessment (MoCa);
- medical history including evaluation of results from the above noted testing and focused on risk factors for safety sensitive duties (driving bus); and
- comprehensive physical examination focused on risk factors for safety sensitive duties (driving bus).

We required the attached Return to Work Medical Clearance form be submitted to the City within 48 hours of the appointment.

Completed assessment results should be faxed back to:

Laurie Trelenberg, Disability Management
FAX: 780-496-9227

Please contact me if you have questions or concerns. Thank you in advance for your assistance.

Thank you,

Laurie Trelenberg
